

FLORESVILLE ELECTRIC LIGHT & POWER SYSTEM

REQUESTING NEW SERVICE FROM FELPS

Here are the steps and the requirements for getting **new or upgraded** service from the Floresville Electric Light and Power System (FELPS).

- CUSTOMER:** Fill out the attached *New Service Application* and submit it with these documents:
 - NEW SERVICE APPLICATION*
 - Copy of the Property Deed
 - Tax Exempt form if you are claiming tax exemption from the state.by **Email:** newconstruction@felps.us and include all attachments
In Person at the FELPS office at 1400 4th Street Floresville, TX,
Mail: FELPS, Attn: New Construction, P O Box 218, Floresville, TX 78114
- FELPS:** A FELPS Line Designer will contact you to set up an appointment to meet you at the property to finalize requirements, determine the location for our lines, and equipment and identify right-of-way clearing requirements.
- FELPS:** The FELPS line designer will provide you the Line Cost for your new service and the easement requirements for placing our equipment on your property. FELPS requires a 30 foot property easement to allow us to install and maintain our equipment, which includes trimming trees around our lines. **Easements may also be required from adjoining property owners if the new line will run through, or along their property line. You will be responsible for working with your neighbor(s) to get the easements signed by them.** Your FELPS Line Designer will provide you the required easement documents along with your Line Cost.
- CUSTOMER:** To proceed with getting new service, you must pay your portion of the line cost and return all signed and notarized easements, including those from adjoining property owners, before we can begin construction. At this time, you will also need to set up your electric account. A security deposit may be required.
 - Line Cost Payment
 - All signed and notarized easements
 - Meter Application (available online at www.felps.us)
 - Security Deposit
- CUSTOMER:** You or your electrician may pick up your meter can from the FELPS office any time after your LCP is paid. Our office hours are Monday-Friday from 8:00-5:00.
- FELPS:** The FELPS line designer will finalize the design, and stake the locations on the property.
- FELPS:** The job will be scheduled with our construction crew, and will generally be started within two weeks of the date the customer made payment and provided all easements.
- CUSTOMER:** Once your electrician has completed your meter loop, call FELPS Customer Service at 830-216-7000 sub-option 1 to have the meter loop inspected and service connected.

FLORESVILLE ELECTRIC LIGHT & POWER SYSTEM

Release of Liability for Floresville Electric Light & Power System (FELPS) to Complete Work on Private Property at Request of the Property Owner

The property owner (Grantor) located at _____ (Physical Service Address) warrants that, to the best of their knowledge, the proposed electric distribution line route or Easement is free of underground structures and/or utilities, including but not limited to water, sewer, gas, telephone, cable, etc. The property owner will locate, or cause to be located, and reasonably mark all known underground structures and/or utilities along the proposed electric distribution line route or Easement where excavation of the ground is needed for the purposes of setting poles, anchors, conduits, or other electric distribution materials. This Release of Liability also applies to FELPS' vehicles and equipment traveling across customer's property. This Release of Liability is valid for six months from the date agreed on below. Should FELPS damage or otherwise excavate an incorrectly marked or unmarked underground structure, utility, or similar unmarked facility, the Grantor shall assume all liability and agree to save and hold harmless FELPS from any and all damages except those arising out of gross negligence of FELPS.

SIGNED AND AGREED TO THIS THE ____ DAY OF _____, 20____.
